

WOOD COUTURE

# AutoCAD Draftsman

## About Wood Couture

Wood Couture manufactures bespoke furniture, artwork, and decorative accessories, specialising in loose furniture for high-end hospitality and residential projects. Our approach leverages technological innovation and in supporting passionate people to pursue their ideas. The helm of this approach are our expert leaders who steer the company, guided by their extensive experience in all areas of hospitality. With over 27 years of experience, 28 workshops, over 45,000 units delivered and over 100 completed luxury projects worldwide, we are Wood Couture.

## Job Overview

We are seeking a skilled AutoCAD Draftsman with expertise in furniture, joinery, fit-out & fixtures to join our dynamic team. The successful candidate will be responsible for translating design concepts into detailed technical drawings, ensuring precision and adherence to project specifications. This role involves collaboration with architects, designers, and production teams to bring innovative and high-quality joinery and furniture designs to life.

## Responsibilities:

### 1. Drafting and Design:

- Create detailed and accurate AutoCAD drawings for projects based on design concepts and specifications.
- Interpret design drawings and convert them into comprehensive technical plans for production.

#### 2. Collaboration:

- Work closely with architects, designers, and other team members to understand project requirements and design intent.
- Participate in design meetings to provide technical insights and recommendations.

#### 3. Material Selection:

- Collaborate with the procurement team to select appropriate materials for joinery and furniture projects.
- Ensure that selected materials align with design specifications and project requirements.

#### 4. Quality Control:

- Conduct regular quality checks on drafted plans to ensure accuracy and compliance with industry standards.
- Address any discrepancies or issues identified during the drafting process.

#### 5. Communication:

- Effectively communicate with production teams to convey technical details and requirements.
- Provide timely updates on the progress of drafting tasks to relevant stakeholders.

## Skills:

- **AutoCAD Proficiency:** Demonstrated expertise in using AutoCAD for the 2D/3D creation of detailed technical drawings.
- **In-depth knowledge & understanding of furniture, joinery, fit-out & fixtures processes, materials, and construction techniques.**
- **Detail-Oriented:** Exceptional attention to detail to ensure precision and accuracy in technical drawings.
- **Collaboration:** Strong teamwork and communication skills to work effectively with cross-functional teams.
- **Time Management:** Ability to manage multiple projects simultaneously and meet deadlines.
- **Problem-Solving:** Proven ability to identify and address issues during the drafting process.
- **Creativity:** A creative mindset to contribute innovative ideas to design solutions.

## Qualifications:

- Diploma or degree in a relevant field (e.g., Architecture, Interior Design, Drafting).
- Proven experience as an AutoCAD Draftsman with a focus on furniture, joinery, fit-out & fixtures projects.
- Portfolio showcasing previous furniture, joinery, fit-out & fixtures projects is a plus.
